

corresponds to the nucleotide sequence identified in SEQ ID NO:1. One of ordinary skill in the art would have recognized from these disclosures that a segment of amino acids was missing from SEQ ID NO:2 underneath identification numbers 321-340 and would have readily been able to determine the omitted amino acid segment by translating from the corresponding codons in SEQ ID NO:1. Thus, no new matter is added.

Early and favorable action on the merits is respectfully requested.

Respectfully submitted,

William P. Berridge
